The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-3, 5, 7-9, 12, 13, 16, 19, 21 and 24-25 are rejected under 35 U.S.C. 102(a) as being anticipated by Spurgeon ('129).

The reasons for this rejection were set forth in the office action of 12/15/00 and are hereby incorporated by reference. With respect to newly added claims 24-25, it is observed that the network of Spurgeon incorporates the Internet, which incorporates both transient and permanent networks. Transient networks would be dial up modems connected to the Internet. Permanent networks would be the networks of hard wired switches carrying Internet data. Both of these are inherent features of the Internet.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 10, 11, 14, 15, 20, 22 and 23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Spurgeon ('129).

The reasons for this rejection were set forth in the office action of 12/15/00 and are hereby incorporated by reference.

Claims 4, 6 and 17-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Spurgeon ('129) in view of Moore et al. ('759).

Art Unit: 2166

The reasons for this rejection were set forth in the office action of 12/15/00 and are hereby incorporated by reference.

All claims are drawn to the same invention claimed in the parent application prior to the filing of this Continued Prosecution Application under 37 CFR 1.53(d) and could have been finally rejected on the grounds and art of record in the next Office action. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing under 37 CFR 1.53(d). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication should be directed to Sam Rimell at telephone number (703) 306-5626.
